THE GREYHOUND

**I. C. NORCOM HIGH SCHOOL
PORTSMOUTH, VIRGINIA
1960**

**PUBLISHED BY: THE JOURNALISM CLASSES
And
SPONSORED BY: THE SENIOR CLASSES**

FOREWORD

In this modern and scientific era, it is vitally important that we exercise our potentials to the utmost.

Today, there is a demand for brilliant young minds in many fields. Present day students have such opportunities that it seems almost impossible that our country would have a lack of so many competent persons especially in the field of science.

But we haven't lost all hopes yet. Perhaps somewhere in this book between the classes of '60 and '63 there will be found a worker or designer of some of our most internationally known missiles and scientific developments.

We do hope that students today are taking their subject matter seriously. It is imperative that our young minds be fully developed rather than let a lack of ambition prove detrimental to our society.

For the classes of '61, '62, and '63, it means a continuation of secondary work. So make those years successful ones.

For the class of 1960, high school is but an image in the past and a recollection of many high school activities that we do not want to forget so readily.

In order that all of us at Norcom may recall the 1960 activities in later years, the yearbook staff has worked diligently, hoping to make these activities pleasant memories.

This memory book contains information from the first kick-off at Portsmouth Stadium on September 12th, when the "Mighty" Greyhounds defeated East Suffolk 27-0, 'til the glorious June night of graduation.

With sincere gratitude to everyone who aided us, the yearbook staff sincerely hopes that you will consider this book of memories a total success.

ALMA MATER SONG

For you, dear Norcom, we declare
A love that's ever true,
Allegiance, Alma Mater dear
We justly swear to you.
Deep in our hearts you hold a place
No other school can hold.
Forever and a day we're yours,
Yes, yours a thousand-fold.

Instructions you have given us;
From us they'll ne'er depart.
Intelligent you'll make us all,
To love you teach the heart.
To set our ideals high, you say,
Will make us a success.
Our training all we owe to you,
The school that we love best.

DEDICATION

MR. W. E. WATERS

Because Norcom is developing culturally and educationally as an admired institution, we the 1960 graduating class decided carefully on its most influential supporter. We found one who, during good times or chaos, has shielded Norcom by his guidance and instructions.

We were inspired to achieve by watching him cling to tenacity and sagacity during the past challenging years. We copied reverence, compassion, and perfection from him. We realized that our rapid growth was a result of his many contributions. His interest in youth was known by us, and was reflected through an invitation extended him recently to attend President Eisenhower's White House Conference on Children and Youth.

Realizing our great fortune in having this person as our leader, we are attempting to show our appreciation in a small way. To our able principal, Mr. William E. Waters, we gratefully dedicate this annual.

CONGRATULATIONS! **from the Principal**

It is so difficult to speak in these days of world tension, national confusion, racial conflicts and human distrust. Yet, it is because of these frustrations that we must speak.

The act of becoming educated is a very real thing in the year 1960. It includes reading, writing and arithmetic, but it also includes dressing properly, walking and sitting correctly, familiarizing one's self with outstanding operas, plays on Broadway, Hollywood "Greats," enriching one's life with good books, travel and the breadth and depth one gets from association with other people.

Really, we have listed ingredients so necessary to personal growth and/or improvement, but there must be general acceptance of the idea that each person will embrace these on the basis of his capacity to achieve and to profit from opportunities surrounding him.

This is the year for stopping, studying, and seeing ourselves in light of the role each of us is expected to take. Too many valuable hours have been wasted by us from grades 1-12.

There will have to be greater cooperation between school and home - parents and teachers so that pupils from the start will have the study habits necessary to progress. There will also have to be an eagerness on the part of each child to take his place in this human race; there will have to be a greater desire on part of all to take advantage of the offering of each community and society; there must be greater effort to maintain and extend the things learned from year to year; there must be a oneness of soul and mind as we overcome the obstacles which beset us daily. We must "lift as we climb." To begin, is not enough. We must forge ahead if we are to win. Showing effort is only one part of the struggle but improving the quality of our striving is the ingredient which will insure success.

This seems to be the year of doubt and indecision - it may be the year of crisis - if so - you, my Seniors, will be an important part of it.

Are you prepared to meet the challenge?

Have you taken advantage of every opportunity to improve yourselves while here in I. C. Norcom?

Have you leaned heavily on research for your answers? Have you taken time out for experimentation in order to find answers?

Have you learned how to become a critical thinker? Have you dared to be creative?

Have you sought spiritual guidance in order that your academic and moral disciplines might meld and leave you with deeper insight and higher goals?

We have tried to offer a broad program here so that you will be able to cope with many of life's complex problems on a basis of your individual ability to comprehend, adjust, and move forward.

This is just the beginning - the long road is ahead. How you will travel it will depend on you - your sincerity of purpose, devotion to duty, personal enthusiasm, continued willingness to learn and alliance with the cause of justice, peace and brotherhood.

"No earthly being can force me to be false to my principles, or to be blind to the beauty of the universe, or to be gloomy, or to be irritable, or to complain against my lot. Cheerfulness, kindness, and honest thinking are all within the department of the brain. And my brain is disciplined, and I will discipline it more and more as the days pass."

From The Human Machine
By
Arnold Bennett

**Mr. A.T. Edwards,
B.S., M.S.
Hampton Institute
Cornell University**

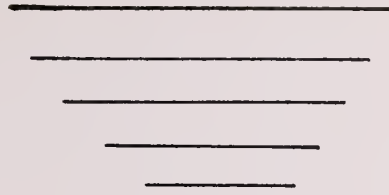

CONGRATULATIONS!

To the graduating classes of January and June 1960, a fond farewell with a degree of sadness. We feel happy for you because you have reached another milestone in development toward your life's goal, but we are filled with mixed emotions when we think of losing your active participation in things great in the life of Norcom High School.

You have given your school fine leadership. You have been responsible for many worthwhile activities and contributions which you will appreciate more and more as time passes on. Your contributions have been many toward the honors gained in dramatics, choral and band appearances and festivals in the past four years. You have contributed toward one State V.I.A. football championship, three State and one C.I.A.A. high school track championships, two district basketball championships and, too numerous to enumerate, first and runner-up spots in the Penn Relays, Journal and Guide Meet, and tennis and baseball.

It is a pleasure to congratulate you and wish for you a successful life in the future.

A. T. Edwards,
Assistant Principal

Class Poem

"A Tribute to Norcom"

-by Jacqueline Cooper

As our high school career is fading
Into four memorable years,
The prosperous class of '60
Sighs and smiles with tears.

Teachers, school, administration
All-we presently adore.
Forget them in the future?
If possible, we'll love them more!

They emphasize book-learning
Far beyond a doubt;
But guidance, culture and pride
Could never be left out.

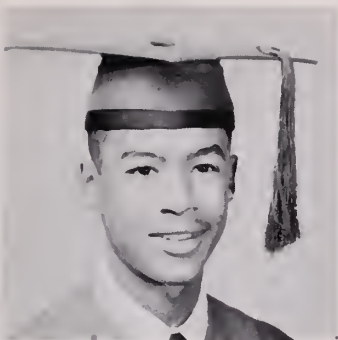

Preparing us for the future
Has long been their foremost aim.
Just allow us the chance to thank you;
You'll know it wasn't in vain.

When we were some four years younger
We heard very wise men say,
"Give the best that you have to Norcom,
In the end, there's a glorious day."

So working and striving in every channel
Having clean fun too;
God guided us to much success,
Not a part, but all the way through.

Now from our dear Alma Mater
We must surely depart;
But an institution like Norcom
Never leaves an individual's heart.

Gratefully considering our leaders
At this time we say good-bye
But stopping to thank Someone above
Who is much Greater than you or I.
